## Job description

The Solvay Brussels School of Economics and Management (SBS-EM) is the Faculty of Business and Economics of the Université libre de Bruxelles, one of the leading research universities in continental Europe. The School prides itself for its programmes that combine scientific rigour, contextual engagement and problem-solving skills. The School invites applications for a part-time position in in Research methods. The course is taught in English in the Research Master in Economics and statistics in the second term.

## Educational and scientific goals:

The aim of this course is to introduce students to conducting and presenting academic research in economics (both theoretical and empirical/experimental). The course will be given by several instructors, who will discuss specific aspects of different (sub-)fields in economics. In addition, the students will learn how to handle and present data, critically evaluate academic research papers, develop a research proposal, and to improve their presentation skills (aimed at academic (and broader) audience).

The course is highly interactive. Most meetings are based on lectures and discussions about specific research methods and approaches. Certain parts of the course will also use applied hands-on work on data. The final part of the course will involve presenting by students and giving individualized feedback on their presentation skills.
